### CONTRACTING WITH SSG

As a Native Hawaiian owned small business, the SSG can fulfill Federal contract requirements in regards to Small Businesses contract participation. In pursuit of the Small Business Administration's 8(a) Programs status, the SSG is looking for key companies to partner with in the SBA Mentorship/Protégé program. Upon successful award of the SBA 8(a) status, the SSG will be able to receive sole source Federal and DoD contracts. This will offer Federal Government customers a highly valuable teaming arrangement that streamlines the acquisition process. This may lead to very beneficial Joint/Ventures under the 8(a) program.
